Honorary Secretary: 2023-

I completed my master's degree in MA Urban Management and later pursued studies in MA Language Studies at City University of Hong Kong. Currently, I am a doctoral candidate in the Department of Translation and Linguistics at City University of Hong Kong.

My research interests include audio description, corpus linguistics, and public policies. Beyond my academic pursuits, I am committed to fulfilling my social responsibilities. I have always been deeply concerned about the rights and well-being of marginalized groups, such as people who are visually impaired and children whose parents are in prison. I believe in advocating for their rights and working towards creating a more inclusive and equitable society.

I am thrilled to be part of the HKAUW, where I consider it a privilege to contribute my skills and knowledge to advancing women's rights and empowerment. Being part of this community allows me to collaborate with like-minded individuals and make a positive difference in women's lives.
